CORPORATE

WORKWEAR FOR
PROFESSIONALS

FROM 2022

DEAR READERS,

In dynamic times that constantly challenge us all, it is reassuring to rely on experienced partners - and on products of the highest quality, designed by professionals for professionals. Our success story began in 1802 with the weaving and printing of linen, but we have never stood still. Just as the needs of our customers change, we are constantly evolving and improving our products. Examples for this are the further development of our collections for various job profiles and new advancements on the important issue of sustainability.

Whatever moves you in your job, we have the perfect clothing for it. There is one thing, you can rely on - GREIFF suits!

Jens Möller,
Managing Director and Owner of GREIFF

GREIFF SUITS.

YOUR WORKWEAR IS OUR MISSION

We do everything we can to ensure that you not only feel good in your workwear, but also that you are well dressed! Because our products are with you every day through your workday, they need to be comfortable, functional and able to withstand a lot. You can be sure that we know that and only use high-quality materials that make our clothing durable and long lasting.

Our employees' expertise and our long-standing relationship with our partners guarantee high-quality and stylish design in all our collections. See for yourself!

FOR A BETTER FUTURE

WHAT WE DO AT GREIFF

Sustainability determines everything we do because we accept our responsibilities towards people and the environment. Our workwear is robust, durable, of high quality and with that way ahead of fast fashion. But we don't just lean on this: We are actively working for a safe workplace for all employees in the production process and the conservation of natural resources. A fair trade and highest possible transparency are also close to our hearts. That's why you can go to mygreiff.de to see where your product was manufactured. Our commitment is also demonstrated by our numerous memberships and certifications with which we advocate for improvements.

On myGREIFF.de you can track the entire production process of your product, from fibre to finish. You'll see where the raw materials come from and where they were processed.

We are a member of the Fair Wear Foundation (FWF). By implementing the working policies of this organisation in our production facilities, we continually improve the labour and social conditions of local people.

We are part of the Textile Alliance, which was initiated in 2014 by the German government. Its purpose is to facilitate exchange between economics and politics. Together with our alliance partners, we set goals for ourselves to improve sustainability throughout the entire production chain.

We are co-founders of the MaxTex Association. Together with our partners, we combine expert knowledge and develop innovative product solutions to promote sustainability in the textile industry.

The Fairtrade product seal for cotton stands for fairly grown and traded raw cotton, which can be traced directly through all production steps, and is processed separately from non-Fairtrade cotton. The cotton in textiles that carry this seal is 100 percent Fairtrade certified.

We rely on the STANDARD 100 by OEKO-TEX – a uniform and independent certification system for textile products. It stands for textiles that have been tested for harmful substances and products that do not pose health risks.

We use SEAQUAL® YARN in some of our collection. The yarn is made of 90 percent PET pellets and 10 percent ocean plastics. The Seaqual Initiative is dedicated to cleaner oceans and organises collaboration between local communities and NGOs and policies.

3 STEPS TO A UNIQUE PIECE

THE GREIFF LOGO SERVICE

Your company is unique and you can show that: With your company name or your logo as high-quality embroidery or emblem on your employees' clothing. Customisation puts the finishing touch on your corporate identity and creates a professional appearance. And it's that simple:

Find the item you want for you or your team.

Choose between embroidery or emblem with your name or logo.

Send your template as a PDF or JPG and specify the Pantone number.

Pricing is as simple as it is transparent: Costs are calculated based on the number of pieces to be upgraded, the number of stitches in the motif and a one-time programme allowance, which we will reveal separately. GREIFF is glad to help you!

OUR QUALITIES MAKE THE DIFFERENCE

Recycled Materials

Recycled materials

100% of the polyester in this textile is from recycled material. The fibres were obtained from plastic bottles and fibre waste. This allows us to reduce our carbon, energy and water loads in the manufacture of your clothing.

Stretch

Stretch

The synthetic elastane fibres processed here have unique elasticity and shape retention. They can be stretched to up to seven times their original length.

Bi-Stretch

Bi-Stretch

This takes "Stretch" one step further and makes your clothes even more comfortable to wear. This is thanks to the synthetic elastane fibres that are used both for the weft and warp of your fabric.

Machine Washable

Machine-washable

No chemical cleaning necessary, because this textile can be washed at home using our care instructions, with no need to fear any drawbacks.

Constant Body Temperature

Constant body temperature

Say goodbye to perspiration and feeling chilly. These textiles feature the best fabric technology that the world of sport has to offer. The 37.5° technology absorbs the infrared energy emitted by your body and serves as a thermostat. When moisture forms, evaporation is accelerated to cool you down. And when there is no moisture present, the IR energy is stored to keep you warm. This maintains your body at the ideal temperature of 37.5 degrees.

Moisture Wicking

Moisture-regulating

This textile contains a specially developed fibre that transports moisture from the inside of the fabric to the outside. Thanks to its high breathability, the fibres also improve the heat-regulating effect of your clothing.

The fibre is wrinkle-resistant, is low-shrink and easy to care for. The elasticity also ensures a good fit and optimal comfort.

Water & Dirt Repellent

Water-repellent and stain-resistant

This finish protects your clothes from the demands of everyday life without altering the fabrics' natural appearance, breathability or feel.

Non-iron

Non-iron cotton

The special meshing of the cotton fibres means the fabric does not crease easily. As a result, creases fall out practically by themselves after washing. The fibres dry quickly and are extremely easy to care for. They are wicking body moisture away to the outside of the fabric and ensuring optimum comfort.

Easy Care

Easy care

It doesn't take much to enjoy pristine clothes. Various finishing technologies make your items especially hard-wearing, meaning regular washing and tumble-drying cycles do not pose a problem.

Organic Cotton

Organic cotton

Organic cotton does not use any artificial plant protection products or fertilisers. It is grown according to the strict guidelines of organic farming.

Denim

Denim

The distinctive and timeless denim material in these textiles impresses with high durability and great comfort.
