Product Catalogue

2025 Edition

Would you like to travel back in time with us?

We invite you to take a look at **75 years** of our history through our catalogues. We have digitised our archived catalogues so that the most curious can get to know our range from more than half a century ago.

1985

2014

2024

2002

Since the publication of our first general catalogue in 1972, our range of products has continued to grow to support professionals in more and more sectors, always ensuring their safety and comfort. We are proud to dress generations of the same family and to continue to innovate in order to offer better products in each new catalogue for all those who follow.

VelillaGroup. Equipped for living

A family value that goes global

We are a family-owned, international company that for 75 years has been designing, manufacturing, and distributing technical workwear with impeccable service, ensuring quality, style and comfort.

With more than 30 years of experience in international markets, our offices in Spain and Vietnam, as well as branches in several European countries, allow us to be close to our clients all over the world.

Customer satisfaction

The fact that our sales network and customer service receive the highest satisfaction ratings is a true reflection of our obsession with service and quality. And this encourages us to keep improving.

Our ability to adapt to the needs of our clients, and to be able to work with both small and large volumes, in addition to offering a wide range of colours and sizes, together with personalized advice on printing techniques, has made us a current benchmark in corporate workwear and promotional textiles.

Logistics centre

We have a state-of-the-art logistics centre, equipped with the latest technology, located in Albacete. After its recent expansion, it doubled in size to almost 27,000 m², reaching annual storage capacity of 24 million garments.

Furthermore, thanks to the expansion of our multi-order picking stations, at Velilla Group we have increased our production capacity to 97,000 garments per day and can process more than 500,000 orders per year in less than 24 hours. This allows us to serve tailored orders, both nationally and internationally, to our customers.

Printing

We have our own 1,500 m² printing workshop with the latest technology in screen printing, DTF and embroidery. Our highly qualified staff advises our customers to obtain the best results in each of their projects.

75 years | Looking to the future

VelillaGroup.

Equipped for living

Our brands

Velilla Group manufactures three major international brands: **VELILLA**, **VPRO** and **MUKUA**, whose catalogues incorporate new references and are constantly updated.

velilla

Is our leading brand specializing in workwear, with an extensive catalogue of over 350 references divided into 5 families:

- High Visibility
- Industry
- Food Industry
- Health and Services
- Hospitality

VPRO

Is our safety footwear brand.

Our products, certified in compliance with all current regulations, are backed by the best customer service.

We create designs focused on the needs of professionals aiming to develop the best safety footwear on the market, offering a wide variety of colours that combine perfectly with Velilla workwear uniforms.

MUKUA

Is our promotional textile brand.

It is modern and creative and has a very definite commitment: to offer our customers the style and comfort that most inspires them.

All this without forgetting sustainability through our eco-responsible line: MUKUA Natura.

Greenproject.

by Velilla Group

For many years, at Velilla Group we have been working with our sights set on the future. Offering a value proposition to our clients and generating a positive impact on our environment have always been among our priorities.

We believe that the role of business as a transformative force in society is essential, in order to be able to contribute to the creation of long-term sustainable development, without compromising social and environmental needs.

For this reason, the **Green Project**, was born, a programme that forms part of our commitment and where we encompass and promote all the initiatives, we carry out to care for our planet and all those who live on it.

The implementation of a circular project, the use of renewable energy, even printing the pages of this catalogue in an environmentally friendly way, are just a few examples of all the measures and policies contained in this ambitious project.

More information at: www.velilla-group.com/en/greenproject-en

This catalogue is printed on PEFC certified paper

The raw material comes from forests certified by independent experts to ensure that they are managed according to strict national and international standards. In this way, we contribute to halting deforestation and are supporting foresters and forest owners who care for and manage their forest land sustainably.

velilla-group.com

- **International standard UNE-EN ISO 14001**

Velilla Group complies with this reference standard to maintain a **Management System** that helps to control the environmental aspects that may arise during business activity.

In addition, commitments are established in which **objectives are set for continuous improvement**, aimed at further reducing the environmental impact in all processes.

- **Our leading circular project**

We are leading the collection of work clothes to boost the circular economy in the workwear sector. In collaboration with **Cáritas** and its social project **Moda re-**, we are developing this initiative that aims to **give work clothes a second life** for a more sustainable future.

You too can be a Green Project Ambassador! Join the more than 100 collection points participating in this project!

- **New Textile Exchange certifications**

We are moving towards a more sustainable and responsible future. We are proud to announce that we have obtained three prestigious international certifications:

Global Recycled Standard (GRS): sets requirements for certification of recycled material content, chain of custody, chemical restrictions, and sound social and environmental practices. All our garments certified and labelled under this standard contain a minimum of 50% recycled material.

Recycled Content Standard (RCS): verifies that labelled products actually contain recycled materials and are traceable from source to final product. All our garments with a percentage of less than 50% recycled material will be labelled under this standard.

Organic Content Standard (OCS): certifies that products contain organic materials in the stated amount and that all requirements of the standard are met throughout the entire chain of custody.

This achievement supports our developments in recycled polyester and organic cotton fibres, ensuring that they meet the **highest sustainability standards**, optimising the consumption of natural resources and improving working conditions for everyone in our supply chain.

- **We are part of amfori**

We joined the world's **leading Business Partnership for Sustainable Trade** to take another step in our strong commitment to the environment and society. This milestone strengthens our day-to-day work to ensure **ethical and sustainable** business practices in our global supply chains.

- **OEKO-TEX®**

We have products that comply with the OEKO-TEX® certification, be it the garments or fabric.

This standard guarantees the absence of harmful substances, both in the finished garments and the manufacturing stages, complying with the REACH regulation of the European Union, which restricts the use of chemical substances and heavy metals that are toxic to the health of users.

SEGMENTED TAPE

Do you know our segmented tape range?

All reflective properties, **now seamless!** Thanks to the heat-sealing process of our segmented tape to the garments, the user experiences total freedom of movement. Most importantly, despite being seamless, the Reflatex RS segmented tape range is **certified** for its reflective properties. Discover the sweatshirts, polo shirts, t-shirts and trousers references with segmented tape.

Do you know our Hi Vis Cotton range?

We have combined **technology and comfort** to offer professionals the best ally in their work: our Hi Vis Cotton fabric. Thanks to an innovative manufacturing process, its structure is constructed in such a way that the **cotton fibres** remain in contact with the user's skin, while the polyester on the outside ensures that the garments do not lose reflectance or certification capacity. Discover our wide range of products and let yourself be seduced by their **breathability, softness and comfort**.

Outerwear

Do you know our High Visibility outerwear collection?

We have an attractive and wide range of garments that will protect you when working outdoors. Thanks to the certifications in the most demanding standards of the market, our outerwear garments, such as jackets, waistcoats and fleeces, will allow you to carry out your daily work in a safe way, with unique comfort and resistance.

Soft shell

Parkas

Jackets/Vests

Three-ply fabric ↓

Our soft shell fabric is made of three different layers. These layers are made of knit stretch fabric on the outside, a membrane of breathable fabric in the middle and fleece lining in the interior. Breathability, elasticity and waterproofing are the keys to the success of this garment.

→ Wind resistant

→ Water resistant

→ Breathable

Enhanced Visibility

EN 17353

EN 17353

Do you know our enhanced visibility range?

We have a selection of garments certified under the UNE **EN 17353**, class B3 standard, especially designed for professionals working in **medium risk** environments. Its retro-reflective tapes, placed on the torso and/or limbs, allow the recognition of the shape and movement of the user in **night-visibility** conditions. Discover all our references to offer the greatest safety and comfort to workers.

CE Regulation

Hereafter, we detail a short description about the additional and basic requirements established by the European regulations on safety footwear:

EN ISO 20344

This regulation defines the testing methods for occupational and safety footwear. It is used alongside the regulations EN ISO 20345 and EN ISO 20347, wherein the requirements that footwear must comply with according to the risk levels are detailed.

EN ISO 20345 | Specifications for safety footwear

This international standard details the additional and basic requirements for safety footwear, including mechanical risks: safety toe designed to resist a maximum impact of 200J and crushing up to a force of 15 kN, slip resistance, thermal risks and ergonomic characteristics.

EN ISO 20347 | Specifications for work footwear

This international standard details the additional and basic requirements for occupational footwear that is not exposed to any mechanical risks (impact or compression).

SB

Toe with impact resistance up to an energy equivalent to 200 J and compression force of 15 kN.

*** 01** S1 without reinforced toe

* EN ISO 20347

S2 S1 + Resistance to water penetration and absorption

S3 S2 + Resistance to perforation

UNE-EN 61340-5-1 Electrostatic Protection

Antistatic footwear is used when it is necessary to minimize the risk of accumulation of electrostatic charges by dissipating them in the shortest possible time; guaranteeing the safety of the worker in areas with electronic control machines. It provides additional protection for resistances less than 100 kΩ.

STRETCH®

Do you know our Stretch range?

Comfort is a non-negotiable attribute and is closely linked to the **flexibility** of the garments. That's why we have our own Stretch range for Industry, where **freedom of movement** is the main focus. In addition, their exceptional properties simplify maintenance, as they are crease-free, quick-drying and tear-resistant. Discover all our Stretch series and feel the difference.

Do you know our Denim range?

Denim has been a part of workwear for decades, as it is designed to be **durable and comfortable**. At Velilla we have raised the stakes by creating our denim collection, even more comfortable thanks to our **Stretch fabric**.

Furthermore, in their production, **70% less water** is used compared to conventional jeans. This is how we protect the planet and all of us living on it.

VELILLA

100% Cotton

Do you know our 100% cotton range?

Our 100% cotton references are always a **guarantee of success**. Our secret lies in designing garments adapted to the different needs of professionals, combined with **the benefits of this natural fibre**. Cotton works as a heat insulator, resists high temperatures, has good colour fastness, favours breathability, is hypoallergenic, has a soft touch... Discover all our references in this catalogue.

Food Industry

Our range of garments and accessories is intended for workers involved in food handling and packaging processes. The difference being that they are specifically designed not to release elements and to avoid pollutants. These are specific garments that help to maintain the hygiene and safety of workers and products.

We also have a full range of garments adapted to work in cold environments as well as a range of disposables.

Healthcare and Services

Our versatile assortment of scrub sets, lab coats and accessories is available in attractive colour palettes. These garments stand out not only for their quality and reliability, but also for their comfort thanks to the composition of their fabrics and their elasticity.

These high-performance fabrics are distinguished for their hygiene and comfort, two essential attributes for health and veterinary professionals, in beauty clinics, gyms and spas or cleaning services, among others.

Introduction to the Healthcare and Services family

NEW FABRIC

NEW

Our innovative PureStretch fabric, with 360° stretch, combines the best technology in terms of comfort, freedom of movement and durability; with the antibacterial and anti-odour properties of our SilverPlus® treatment and the functionality of the water-repellent finish, which will prevent any liquid from coming into contact with the skin. It is also breathable, wrinkle-resistant and extraordinarily soft. Thanks to its composition with GRS recycled polyester, we contribute to creating a more sustainable world.

Smart® Micro+fiber

Smart Antimicrobial Protection

Our high-performance Smart Microfiber® fabric with SilverPlus® treatment is the best solution for hygiene, protection and freshness. Our microfibre is characterised by its softness, elasticity and breathability. Thanks to its silver ionic finish, it protects fabrics from odour-causing bacteria. In addition, its water-repellent finish transports body moisture away from the fabric.

Our stretch sanitary fabric is always a guarantee of success. With this range of sets you will enjoy the main advantages of our well-known stretch fabric, characterised by its softness, durability and great recovery capacity. These garments provide professionals with an extra sense of comfort, thanks to their pleasant texture and soft feel, and allow them to have great freedom of movement.

PolyCotton

Our high-quality twill fabrics are characterised by their high durability and pleasant wearing comfort. As well as being soft to the touch, it is very easy to maintain: it is very easy to wash, does not fade or warp, which makes this range the right choice for all professionals. Thanks to its remarkable durability, you can enjoy a longer garment lifespan.

Hospitality

Worker uniformity plays a key role in the customer experience. That is why we offer a wide variety of solutions for both kitchen and dining room: design and functionality serving professionals.

We have a range of jackets and trousers designed for kitchen teams. Modern, resistant garments for dining room teams, giving them style and freedom of movement. And to complete the uniformity, an assortment of accessories and aprons are available in a wide range of colours.

Chef's jackets	218 / 229
Chef's trousers	230 / 235
Shirts	238 / 247
Polo shirts and T-shirts	248 / 249
Trousers	250 / 257
Aprons and accessories	260 / 279

Introduction to the Hospitality - Kitchen family

— Our fabrics

Kitchen professionals' work is highly demanding due to the constant challenges they face on a daily basis. For this reason, we offer a selection of garments incorporating **high-performance fabrics and a variety of comfortable and attractive designs**. With Velilla, your uniform will become your best kitchen help.

Our stretch fabric stands out for its elasticity and softness, favouring the user's freedom of movement and comfort. In addition to their **durability and resistance** to tearing, these garments are always a good choice, as they are easy to maintain, thanks to their **wrinkle free, quick-drying fabric**.

Our Smart Microfiber® fabric provides softness, elasticity and breathability. In addition, due to its SilverPlus® finish, a treatment composed of **antibacterial**, silver ions, it stands out for providing **hygiene, protection and freshness** to the user. And to top it all off, it is very easy to maintain thanks to its anti-wrinkle and liquid repellent properties.

Coolmax® fabric makes the garments a sensible choice when it comes to equipping kitchen professionals, as it helps **evaporate humidity and favours breathability**. This fabric has been designed to generate a circulation system that moves moisture away from the skin to the outer layer of the fabric, while **regulating the user's body temperature**.

GesDry+ fabric combines innovation and comfort, putting them at the disposal of professionals. Thanks to its technology, it stands out for its ability to channel moisture to the outer surface of the fabric, maintaining a constant body temperature, as well as for its remarkable lightness and softness.

Teflon™ treated fabric is highly recommended in the kitchen due to its remarkable water, oil and stain repellency. Garments stay looking as good as new for longer due to their resistance to dirt and splashes, requiring less frequent care than conventional fabrics.

Aprons and accessories

Trendiness and Sustainability

Sustainable aprons and accessories in trendy colours, with extra functionality thanks to their water-repellent properties and ergonomic design.

A different touch

Adding creative flair to your uniform is easy with our designs and colour and fabric combinations, where style reigns.

Functional simplicity

Our 100% polyester aprons are lightweight, durable fabric with less wrinkles.

High performance

The water-repellent Teflón™ treatment offers optimum protection against stains and dirt.

Full colour

In the hospitality industry, uniformity plays a key role in defining the concept of each business. Because every detail counts, we offer you a complete range of **aprons and accessories available in 25 attractive and vibrant colours**. Elements highlighting colour within the uniform while protecting the professionals' garments and facilitating their work. Discover all our designs and colour palette.

Regulations

EN ISO 13688

Protective clothing.

This standard specifies the general requirements for ergonomics, safety, sizing, aging and labeling of protective clothing. It can only be used in conjunction with other regulations.

EN 14058

Cold Environments.

Protection against the effects of cold environments between -5°C and 10°C.

EN ISO 11611

Welding and related processes.

Protection against splashes, short contact with flame and radiant heat from the electric arc. Minimizes the risk of electric shock from contact with conductive materials.

EN 343

Rain.

Protection in environments defined by the possible combination of these conditions: rain, fog, soil moisture and wind at temperatures down to -5 °C.

EN ISO 11612

Heat and flame.

Protection against exposure to radiant, convective or contact heat and molten metal splashes. Limited flame spread.

EN ISO 20471

High Visibility.

User visibility under daylight and / or under headlight illumination in the dark (in high-risk situations).

EN 1149-5

Electrostatic properties.

Garments with electrostatic dissipation properties to avoid incendiary discharges.

EN 17353

Enhanced visibility.

User visibility under daylight and / or under headlight illumination in the dark (in medium risk situations).

EN 13758-2

UPF.

Garments certified under the EN 13758-2 standard protect against UVA and UVB radiation, with UPF 40+ being the maximum value that can be indicated according to the standard, although in practice it can cover higher values such as UPF +50.

Sizes

These tables serve as a reference when deciding what size the user needs*.

The measures given on the tables are not the measurements of the garment but correspond to anatomical measurements taken from the naked human body.

When we manufacture a garment, we must add slack to achieve optimal comfort and convenience. This looseness varies according to design, fabric, gender, etc. making it a more or less fitted garment.

* Not all references are available in all sizes shown in the tables.

Contours:

A Head **B** Chest **C** Waist **D** Hips

i Bear in mind that, in order to take the correct sizes, you will need to measure the entire contour.
